

FINAL YEAR PROJECT GUIDELINES - SRM MTech

1. Introduction

These guidelines are issued by SRM IST to ensure uniformity, accountability, and timely completion of individual project work and associated research publication requirements for all students.

2. Project Review Requirements

2.1 All Physical reviews are Mandatory

All project reviews shall be conducted in person.

Attendance during the review is compulsory, strictly no exceptions

2.2 Pre-Review Consultation with Guide

The student must conduct a minimum of two meetings with the project guide prior to each review.

Documented proof of these meetings (signed meeting log, email confirmation, etc.) must be submitted at the time of review.

3. Research Paper Requirements

3.1 Compulsory Publication

Every student is required to publish at least one research paper based on their individual project work.

3.2 Target Conference/Journal

The research paper must be prepared for submission to the IEEE Conferences to be held in SRM University.

Alternatively, the paper may be submitted to any Scopus-indexed conference or journal, subject to guide approval.

3.3 Paper Progress Review

During each project review, students must present their research paper progress along with project progress.

3.4 Project Alignment

The project outcome should be always aligned with any one of the 17 SDG (Sustainable Development Goals)

4. Communication Protocol with Guide

4.1 Responsiveness

Students are expected to maintain regular communication with their guide.

4.2 Non-response Handling

If the guide does not respond within a reasonable timeframe, the student must send a formal follow-up email (and or) meet the guide in person at the campus

A copy of this email must be retained as proof of communication.

4.3 Project POC

Your project guide will be your sole point of contact for the entire project.

5. Compliance

Adhering to these guidelines is mandatory for successful completion of the individual project.

Non-compliance may affect project evaluation and publication requirements.
